Editorial 515

The first editorial by Mario Piazza.

On show at La Sala Vinçon in Barcellona from January 19th, F.O.S.C. – Figurative Office Siesta Cubicle- by Marti Guixè is a large cardboard object in the shape of a whale, entered into through the mouth. The belly has been furnished with specific pieces that enable you to have a truly fantastic nap. F.O.S.C. promotes the idea that the siesta is an experience that goes well beyond the idea of a basic “break”.
